Clear UV-protection for your wood in outdoor areas

Examples of wood surfaces after many years of weathering.

Aidol UV Weather Protection Stain, clear UV+

Result: Perfect surface thanks to nano-UV-blockers

Conventional clear stain without UV-protection

Result: irreparable grey discoloration / blue stain damage

Untreated surface

Result: The entire surface of the wood has turned grey

Range of Use

- For wood in outdoor areas such as wood houses, exterior siding, roof eaves, garden pavilions, garden furniture, fences, carports, pergolas, framework, etc.
- Also suitable for tropical wood
- For renovation of old stains, also on windows and doors
- Can also be used indoors

Container volumes:

- 0.75 l
- 2.5 l
- 5 l

Application rate:

- 2.5 l will coat approx. 12.5 m² twice
- Wood colours: 2 x 100 ml/m²
- Clear UV+: 3 x 100 ml/m²

Tips & important information:

Aidol UV WEATHER PROTECTION STAIN (clear UV+) can also be used in a system with Aidol WOOD PRESERVATIVE CREAM (clear) in directly weathered areas. For permanently light-coloured wood, Aidol UV WEATHER PROTECTION STAIN (clear UV+) can be used as a sacrificial layer which is renewed when renovating. This prevents the colour you have selected from darkening for a much longer time.
