

### Preparation of the Sustrate & Application:

- Aidol COLOUR VARNISH 2 in 1 can be applied with a brush, roller or sprayed on.
- For good results the substrate must be clean, dry and free of grease and salt.
- Remove loose rust with a wire brush.
- Remove loose coatings that do not adhere or are damaged. Tightly adhering old coatings should always be sanded.
- For protection against rust, at least two coats are required.
- Working temperature should range between 5 - 25 °C.
- Lower temperatures and thick coats increase drying time.

## Properties

Aidol COLOR VARNISH 2 in 1 has an integrated rust-inhibiting primer and is a synthetic resin varnish. It has many advantages when compared with conventional varnishes. These include:

- Primer and colour varnish in one product
- High hiding power
- High solid content
- Smooth application
- Compliant with the Deco Paint Directive for 2010
- Impact and scratch resistant
- Good weather and UV resistance
- Heat resistant and little tendency to yellow
- High gloss

### Tips & important information:

When used as a rust inhibiting coating, at least two coats of Aidol COLOUR VARNISH 2 in 1 must be applied.

## Range of Use

Aidol COLOUR VARNISH 2 in 1 is suitable for treating uncoated or slightly rusted ferrous metals in indoor and outdoor areas, as well as primed or tightly adhering old coatings on wood surfaces.

- Can be used indoors and outdoors
- For high quality wood structures
- Directly on (slightly rusted) ferrous metals
- Can be used with Aidol All Primer on many other substrates
- Also suitable for radiators

### Container volumes:

- 0.375 l
- 0.75 l
- 2.5 l

### Application rate:

- 2.5 l will coat approx. 31 m<sup>2</sup>
- 80 ml/m<sup>2</sup>, depending on the thickness of the layer
