

## Colours Look As Good As New

PVC windows, roof eaves or roller blinds bleach and become dirty over time. The surfaces of the PVC elements turn matt and unsightly and have to be cleaned more and more often. After several years you may not even like the colour anymore and would prefer something more modern.

There were only two solutions for this problem in the past:

- Replace the elements at great expense, or
- Repaint the PVC elements with a time consuming and expensive coating system.

Remmers now offers Aidol PVC VARNISH 2 in 1 as well as a special cleaner, Aidol PVC CLEANER, which provide a much more economic alternative.

## Aidol PVC CLEANER

Solvent based, special cleaner for PVC

### Properties

- An indispensable supplement for Aidol PVC VARNISH 2 in 1
- Excellent cleaning
- Removes plasticizers to ensure good adhesion of the varnish
- Perfect for pre-treating PE and PP that are to be treated with Aidol All Primer

### Container volume:

- 0.25 l

### Application rate:

- 0.25 l is sufficient for an area approx. 25 m<sup>2</sup>
- 10 ml/m<sup>2</sup>

## Aidol PVC VARNISH 2 IN 1

Primer and Varnish in One

792/12.08 GB

## Properties

Aidol PVC VARNISH 2 in 1 is a water-based single component varnish, containing a built-in primer. It is very easy to use and is therefore suitable for both professionals and non-professionals.

- Primer and finish in one product
- Strong adhesion to the substrate
- Ideal in a system with Aidol PVC CLEANER
- Can be applied with a brush or roller
- Does not soil easily and is easy to clean
- Good flow properties and high hiding power
- Low odour
- Silk gloss

### Tips & important information:

To achieve perfect results, the surface must be prepared with a special cleaner first, Aidol PVC CLEANER. Before coating, test compatibility and adhesion to the substrate.

## Range of Use

Aidol PVC VARNISH 2 in 1 is ideal for renovation and coloured decoration of old and new PVC building elements

- PVC windows and roller blinds
- Roof eaves
- Doors

### Container volumes:

- 0.75 l
- 2.5 l

### Application rate:

- 2.5 l will coat approx. 18 m<sup>2</sup> twice
- 2 x 60-80 ml/m<sup>2</sup> depending on thickness of coating
