

REFERENCE

Farm Buildings, Wachtum

Application Field

- Floor coating – industrial systems

Structure Type

- Agricultural objects

Brief Description

Animal holding pens on a busy farm where years of abrasion (hooves), and urine/faeces had caused heavy pitting to the surface.

Main Problem and Requirements

A non-toxic, damp tolerant material was sought to re-profile the surface and offer long term chemical and abrasion resistance.

SD1-F was chosen and applied as a 12mm thick floor screed.

Client

Livestock Farm, Wachtum

Completion

2009

Products and Systems Used

SD1 – F
