

REFERENCE

Morley Leisure Centre, Leeds

Application Field

- Wood preservation

Structure Type

- Swimming pools / wellness facilities

Brief Description

Gluelam beams used as part of roof structure which needed to be preserved and protected.

Main Problem and Requirements

HK Stain was selected for its excellent application characteristics, and the fact it stains and preserves in one product. (Translucent) LT Stain was used to the most exposed areas to give a medium bodied long time stain effect.

Client

Interserve

Completion

2009

Products and Systems Used

Aidol HK Stain
