

REFERENCE

**Scarborough Police Station,
Scarborough**

Application Field

- Floor coating – slip-resistant systems

Structure Type

- Other public buildings

Brief Description

As part of an extensive refurbishment program to conform with new standards, a new durable, hard wearing resin finish was required to the custody cell and corridor floor areas.

Main Problem and Requirements

The new resin floor finish comprised of an Epoxy screed and coating with seal coat of PUR Top M+ which is hard wearing, scratch resistant and also includes a unique slip resistant finish.
