Description

Our Lady of Victories church was constructed in 1969 using a steel frame and precast concrete sections. The church which is an architectural landmark of North Dublin required extensive repair to the concrete frame.

Problem

Extensive repair was carried out to the concrete frame with the help of Remmers Betofix R2 and Betofix RM.

Product systems / sizes used

› **RM**
Art. No. 0750

› **Betofix R2**
