  No

Description

Abbvie in Sligo, Ireland is a modern biopharmaceutical business with a significant footprint in Ireland that’s focused on novel and breakthrough therapies for tough-to-treat diseases and unmet medical needs, with a reputation for quality.

Problem

The new external chemical storage area required a suitable chemical resistant coating system. Epoxy FAS 100 primer was applied followed by Remmers epoxy WHG coating. This product was chosen for its crack bridging and chemical resistant properties.

Product systems / sizes used

› Epoxy FAS 100

Art. No. 0916

› Epoxy WHG Color

Art. No. 1428
