## Description

Saint Patrick's Cathedral has been part of Ireland's history for over 800 years and today is one of the most popular visitor attractions in Dublin. Built in honour of Ireland's patron saint between 1220 and 1260, Saint Patrick's Cathedral offers visitors a rich and compelling cultural experience and is one of the few buildings left from medieval Dublin.

---

## Problem

Remmers Arte Mundit latex cleaning system was used by Specialist contractors Stone Clean on internal stonework. After application trials, Arte Mundit was chosen by Architects Benjamin and Bauchamp. This is because it gives a suitable level of clean and does not require the use of water whilst being EDTA free
