Description

This large industrial building on a recent development required a fit out for the new owners; an electronic components manufacturer.

Problem

Due to the nature of the business, a suitable ESD flooring was required for the protection area for testing, storage and manufacturing of sensitive electrical components. To determine the designated traffic routes around the building, a contrasting blue floor was laid to define the walkway and truck areas.

Product systems / sizes used

› Epoxy ST 100
Art. No. 1160

› Epoxy ESD Color 3K
Art. No. 6668

› Epoxy Flex PH
Art. No. 6250
