  No

Description

The Alfen Sauna World is located directly on the Alfsee in the Osnabrück region. The Varus Battle took place nearby, in which the Teutons (Germanic tribes) defeated the Romans. The oasis of wellbeing is based on the Germanic style, both architecturally and in the overall concept.Remmers products were used for the flooring in the foyer, in the sanitary facilities, in the sauna, in the bistro and on the walkways.

Problem

In order to represent the theme of the Varus Battle and the architectural Germanic style, an important requirement for the floor covering was a rustic look with good slip resistance and high durability. Easy cleaning also played a major role in a public wellness facility.

Product systems / sizes used

› Epoxy Primer PF
